IEEE 1914 NGFI

P1914.1 TF Opening Report

Chair: Bomin Li, Comcores ApS

Editor: Jouni Korhonen, Broadcom

January 17, 2016

Beijing, China

Summary of intermediate telcos

❏ Four intermediate telcos

http://sites.ieee.org/sagroups-1914/p1914-1/ieee-p1914-1-tf-teleconference-materials/

  ➢ Teleconference 11/16/2016
  ➢ Teleconference 11/30/2016
  ➢ Teleconference 12/14/2016
  ➢ Teleconference 1/11/2017

❏ 3 technical presentations

❏ LS to ITU and SCF
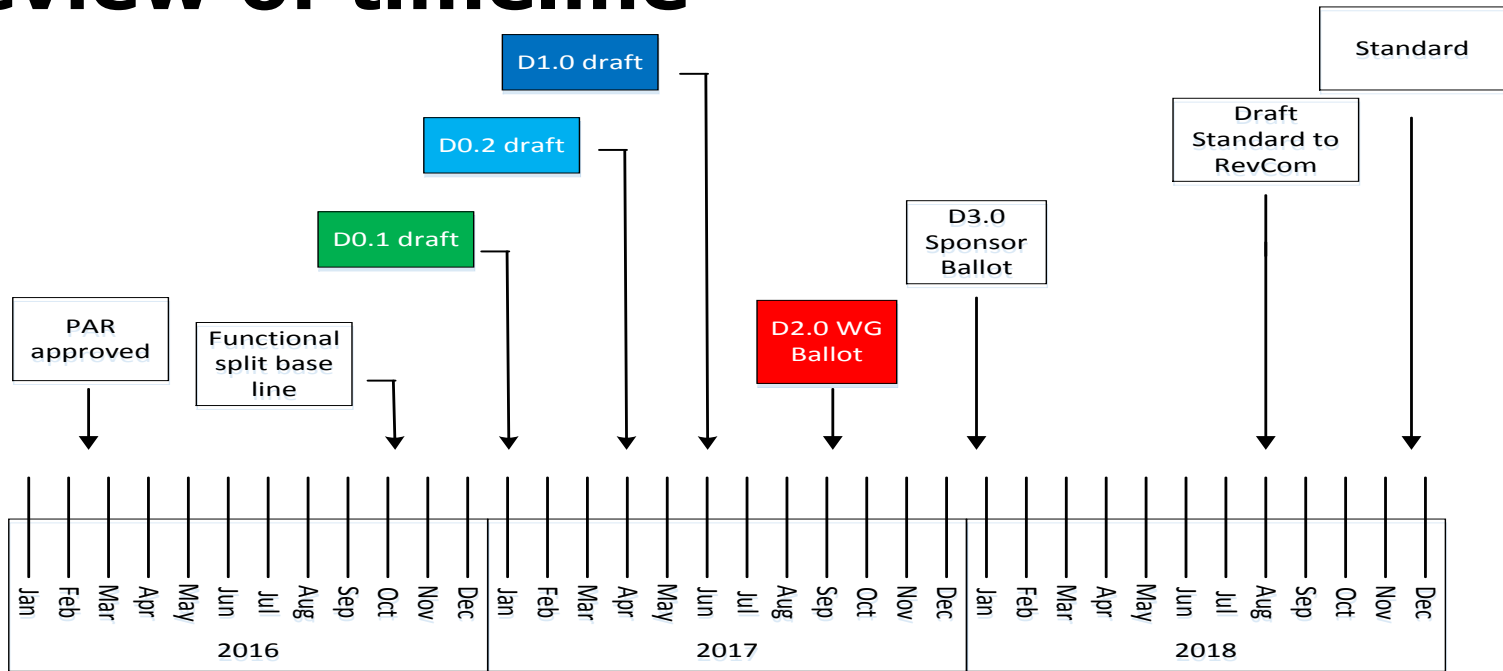

❏ Submission procedure

❏ Administrative stuff

Contribution to Vehicular Technology magazine

❑ WWRF follow-up

Review of AIs

- ❏ List requirements/technologies/other features – closed

- ❏ Distribute ECOC and WWRF workshop presentation slides - closed

- ❏ Prepare LS to ITU-T and SCF – Jinri Huang/Bomin Li - closed

- ❏ Detailed timeline with milestones in future – closed

- ❏ Produce D0.1 – Jouni Korhonen - postponed

Review of timeline

| D0.1 draft: Agreement on reference architecture/deployment scenario Proposals for Requirement/features(fx. Support of protection, delay) |

| D0.2 draft: Agreement on features/requirements Proposals for parameters (eg. what parameters to be transferred for each plane) |

| D1.0 draft: Agreement on parameters Proposals for transport considerations(fx. link setup scheme) |

| D2.0 WG Ballot: No more technical inputs No encapsulation within P1914.1 (which project then?) |

Work plan for this meeting

❑ 8 technical contributions

❑ Reference architecture/user cases baselines

❑ Discussion on future plan

Questions?
