

Registration Authority for ISO 8802
The Institute of Electrical and Electronics Engineers, Inc., has been designated by the ISO Council to act as the Registration Authority for the implementation of International Standards ISO 8802.

Nov 6, 2017
Attn: Jinri Huang
IEEE 1914 Next Generation Fronthaul Interface Working Group
445 Hoes Lane
Piscataway, NJ 08854-4141
US

Following is the Ethernets that you have requested from the IEEE. Please take a moment to verify that the information contained in the company address area (above) is correct. If it is not entirely correct, please notify the IEEE Registration Authority immediately.

The Ethernets tutorial on our web site at:
<http://standards.ieee.org/regauth/ethernet/type-tut.html> (<http://standards.ieee.org/regauth/ethernet/type-tut.html>)

Your Ethernets number is: FC3D₁₆

Issue date is: Nov 6, 2017
Invoice Number: RA1495790173807

It should be stressed that the IEEE Registration Authority has made every effort to ensure that the same numbers are not assigned to any other entity but does not guarantee that duplicate assignments have not occurred. We urge that a single, central administrative authority be established to administer usage in your company to avoid ambiguous use in derived identifiers based on your assignment.

For more detailed information on the uses of your Ethernets, please see the relevant standards.

Sincerely,

Angela N. Thomas
IEEE Registration Authority
