Ida	Sim	UCSF / Open mHealth

Agenda:

1. Attendance
2. Review of action items
3. Review of tasks
4. Other business

Plan: update existing BG schema as needed + create new schemas to model agreed-upon glucose variability measures + propose additions/amendments to metadata schemas

Presentation of draft schemas/sample data pertaining BG unit value, BG, BG ranges, TIR, cgm-AGP, smbg-AGP, header

Discussion regarding defining elements percent_time_sensor_active and numer_of_days_device_worn as metadata (in header, available to all sensors/measures) vs. data in BG-related schemas

Data we think is required for a measure should be in the body → add to schemas

Amended draft schemas to be presented at the next subgroup call, then to the whole WG

Next call: Tuesday, November 15, 2022, at 8 am Pacific time
Minutes taken by WG Secretary Simona Carini, UCSF
