7. Continued resolution of ballot comments on Draft 22, creating Draft 23.

Comment resolutions are detailed in the comment resolution form.

i-29: Deleted “, in numerical transport parameters” Existing wording was excessive. Simplified wording with deletion of text.

i-34: Vector type formats.

- Rejected – Text is in chosen to match/harmonize with IEC 80000-6.

i-35: Tensors

- Discussion tabled – Further consideration needed.

i-38: Italic of i and j – items T13.8

- Reject – Although some textbooks or websites may not follow standards, review is that i and j (imaginary numbers) are upright text (not italics) on the basis that they are specific mathematic functions or operator and follows this standard’s (previously ballot section 3.2, now 4.2) Alphabets and typography.

i-40: Purpose

- Revised – Added purpose statement. This standard provides a basis reference for letter symbols, and corresponding units, in the field of electrical science and electrical engineering. It is intended to be used by producers of technical documents and for the interpretation of such documents.
