Chairs Activities since the 22-1 Report

- IEEE S&SI Ad Hoc on Transitioning SCC's to S&SI SMDC.
 - I am a member of this Ad Hoc.

Acronym	Meaning
SCC	<u>S</u> tandards <u>C</u> oordinating <u>C</u> ommittee (now obsolete)
S&SI	<u>S</u> tandards & <u>S</u> tandards <u>I</u> nnovation
SMDC	<u>S</u> trategic <u>M</u> anagement and <u>D</u> elivery <u>C</u> ommittee

The S&SI SMDC reports directly to the IEEE SA Board of Governors

SMDCs are established by the IEEE SA Board of Governors (BOG) to address strategic focus areas that are necessary and critical for the IEEE SA to achieve long-term organizational objectives

Chairs Activities since the 22-1 Report

- The Ad Hoc Scope:
 - “To guide the transition of former SASB SCCs [SCC14, SCC20, SCC21, SCC39] into Standards Committees reporting to the S&SI SMDC, including updating their operating procedures into the current Standards Committee baseline, and addressing issues such as appointment/election of officers, appeal procedures, default corrective action for dominance, and timing/methodology for reporting.”

Note: the IEEE-SA Permits the SCCs to operate under their current P&Ps until December 31, 2022, or until acceptance by AudCom/SASB of updated P&Ps, whichever is sooner

Chairs Activities since the 22-1 Report

- SCC20 P&P's updated Work Plan
 1. I have moved the SCC20 P&P into the Standards Committee Template and submitted to the AdHoc  7-July
 2. I received the AdHoc's comments 18-August. I have incorporated AdHoc's comments and submit the revised P&P to S&SI SMDC  26-August
 3. S&SI SMDC to review and approve the P&P  September
 4. I will then submit the P&P to AudCom  September
 5. AudCom to review and approve P&P  December

Note 1: the AudCom meeting is 1-December

Note 2: if the P&Ps are not approved in December we will be listed as “visibly under development” and allowed to continue work into 2023

Chairs Activities since the 22-1 Report

- The SA deadline of December 31, 2022
 - DOES NOT APPLY to our SCC20 Working Group P&Ps
 - These will have to change
 - Working Group P&Ps have not yet been addressed by S&SI SMDC
- When the SCC20 P&Ps are approved, I will provide & present an overview of the differences
 - Terminology, Reporting, Membership, Dominance, etc.
- The SCC20 membership & email list was updated
 - Was used to call this meeting

Chairs Activities since the 22-1 Report

- IEEE myProject updates
 - Primarily due to SCCs no longer existing and reporting to the Standards Board
 - The Standards Committee (SCC20) paths will be updated to 'disconnect' from the Standards Board and 'connect' to S&SI SMDC
 - Update will also eliminate previous SCC20 Subcommittees (TAD, TII, DMC, HI) from the path for previous efforts – the previous efforts will remain.
 - When this update starts and is completed is TBD
 - I have had phone conversations with IEEE Staff regarding the updates
 - If you will be required to reenter your desired SCC20 related interest activities in myProject after the update is TBD

Chairs Activities since the 22-1 Report

- Standards Source Material
 - Drawing/Figure Source Files, Word Files, XML, OWL, JSON, TAP files, meeting minutes, emails, etc.
- Questions
 - Should we (as SCC20) collect all the legacy and new source material?
 - If yes, is there a single location to put all this material?
 - Security

 - Face-to-Face & Microsoft Teams participation
 - Location TBD
 - P1671 & P1232 Kickoff
